New Delhi, India

PROFESSIONAL SUMMARY

Cybersecurity enthusiast with hands-on experience in building a real-time SOC monitoring lab using Splunk SIEM. Skilled in log analysis, attack simulation, brute-force detection, and dashboard creation. Practical experience with Kali Linux, Windows Security Logs, and SIEM configuration. Passionate about SOC operations, threat detection, and vulnerability assessment.

PROJECTS

Real-Time Cyber Attack Detection using Splunk SIEM

SOC Home Lab Implementation

- Designed and deployed a Security Operations Center (SOC) lab using Ubuntu (Splunk Server), Windows 10 (Victim), and Kali Linux (Attacker).
- Installed and configured Splunk Enterprise and Splunk Universal Forwarder for centralized log collection.
- Simulated brute-force attacks using Hydra and reconnaissance using Nmap.
- Detected failed logins (Event ID 4625), successful logins (4624), and suspicious process execution (4688).
- Created SPL queries for attacker IP detection and anomaly monitoring.
- Built a real-time SOC dashboard and configured automated alert rules.
- Troubleshooted log ingestion, forwarder configuration, and network connectivity issues.
- **Tools Used:** Splunk SIEM, Ubuntu Server, Windows 10, Kali Linux, Hydra, Nmap, VirtualBox

EDUCATION

Bachelor of Computer Applications (BCA) - Delhi Skill and Entrepreneurship University, Dwarka

Year	CGPA
1st	7.87
2nd	7.00
3rd	Result awaited

CERTIFICATIONS

- Google Cybersecurity Professional Certificate – Coursera
- Pre Security & Cyber Security 101 – TryHackMe
- Ethical Hacking Certificate – NPTEL
- Deloitte Australia Cyber Simulation – Forage
- Mastercard Cybersecurity Simulation – Forage
- Tata Cybersecurity Analyst Simulation – Forage

TECHNICAL SKILLS

Cybersecurity & SOC

- SIEM (Splunk – Basic to Intermediate)
- Log Analysis (Windows Event Logs)
- Incident Detection & Monitoring
- Brute Force Detection
- Basic Threat Hunting
- Identity & Access Management (IAM Basics)

Security Tools

- Kali Linux
- Splunk
- Nmap
- Burp Suite (Basic)
- Wireshark (Basic)

Programming & Scripting

- Python (Basic Automation)
- Bash Scripting (Basic)
- C / C++ (Fundamentals)
- HTML

EXPERIENCE (Virtual Simulations)

Deloitte Australia – Cyber Job Simulation

- Analyzed web logs to identify suspicious activity
- Investigated simulated cyber security breach

Mastercard – Security Awareness Simulation

- Identified phishing threats
- Recommended security training improvements

Tata Consultancy Services – IAM Simulation

- Worked on identity and access management scenarios
- Delivered structured documentation and analysis

POSITIONS OF RESPONSIBILITY

Vice President | Astitva Cultural Society – DSEU (2024–2025)

- Led execution of large-scale college events
- Coordinated logistics, budgeting, and team management
- Developed leadership and crisis management skills
